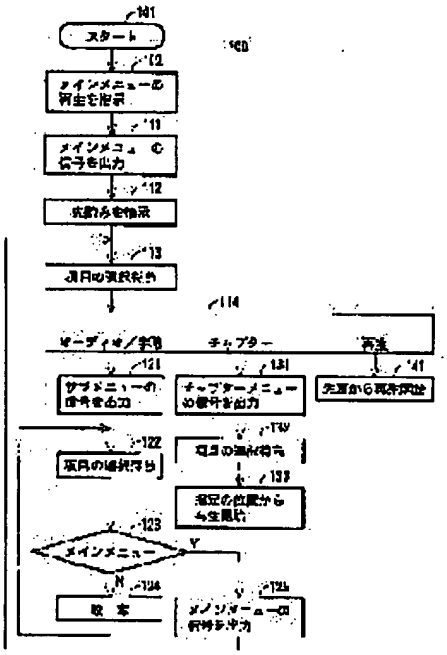
(54) DISK REPRODUCING METHOD

(57)Abstract:
PROBLEM TO BE SOLVED: To improve interactive performance when reproducing conditions are set in the player of a DVD video disk.
SOLUTION: Before a submenu selected from a main menu is decided, the display data of plural submenus is reproduced, and stored in a memory (steps 102 to 112). When one of the plural submenus is selected from the main menu, from the memory, among the plural submenus stored therein, the display data of the selected submenu is read, converted into a video signal, and this video signal is outputted (steps 121, and 131).



LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
